

Starting a Stykz Animation

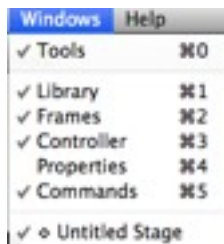

1. Start Stykz
Choose 'Default Document'

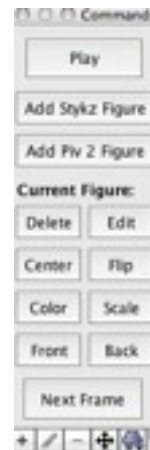

2. This are is
called 'the stage'
→

Create a New Document

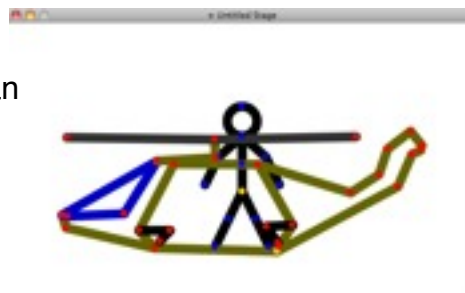

2. Add all the tools, etc.

3. Add or edit
figures

3. If you've done a great drawing, you can
add it to the library to use again.
(Command L or 'Edit...Add to Library')

NB:

**TO EDIT ANY FIGURE, YOU MUST BE
ON THE SELECT (TOP ARROW) TOOL**

- ← Change the size, scale and colour
here

To change the background (stage) colour,
click on the stage, (the stykz man's nodes
will be blue) then change colour here (stage
properties)
